Matterhorn Canyon - Junction Camp and Trail Camp

Yosemite National Park
California

National Park Service
U.S. Department of the Interior

Forage Area: At Matterhorn Canyon - Junction Camp there is a small meadow on both sides of Matterhorn Creek and surrounding understory forage. At Matterhorn Canyon - Trail Camp there is a large meadow on both sides of the creek and surrounding understory forage.

Matterhorn Canyon - Junction Camp

Camp ID: 76
Fire Ring: 287,996mE x 4,210,104mN
Handling Practices: This site is approximately 60 m southwest of where the Pacific Crest Trail crosses Matterhorn Creek. The fire ring is approximately 20 m up the slope west of the trail. The unloading area is at the fire ring. The access route to the holding area starts 30 m northeast of the fire ring on the trail and then heads up the slope 60 m northwest to a flat area overlooking the meadow.

Matterhorn Canyon - Trail Camp

Camp ID: 91
Fire Ring: 287,259mE x 4,209,344mN
Handling Practices: This site is approximately 0.7 mile southwest of where the Pacific Crest Trail crosses Matterhorn Creek. The fire ring is 30 m south of the trail. The unloading area is at the fire ring. The holding area is 30 m northwest of the trail in a large sandy flat.
