

Stock Site Evaluation Project
Long Meadow

Yosemite National Park
California

National Park Service
U.S. Department of the Interior

Forage Area: Long Meadow is north and west of the site and there is a small meadow east of the site.

Long Meadow

Camp ID: 79

Fire Ring: 286,248mE x 4,187,689mN

Handling Practices: This site is located on a knoll that overlooks Long Meadow and is southeast of the John Muir Trail. The access route starts where a small seasonal drainage crosses the trail. The route heads up the slope southeast for approximately 150 m to the top of the knoll where the fire ring is located. The unloading area is at the fire ring. The holding area is 10 m north of the fire ring. Do not camp or hold stock in any of the sensitive resource areas due to concerns about stock use causing potential impacts.
