

Yosemite Essentials

Curry Village Parking

Yosemite Valley can be extremely busy, especially on weekends and holidays.

Arrive early in the morning or late in the afternoon to avoid long lines at park entrances.

Yosemite Valley parking can completely fill by late morning. Once you find a parking space, keep it. Walk, bike, or use free Valley shuttles to get around (page 6.) If Yosemite Valley parking is full, explore other areas of the park and return later in the day.

Park only in designated parking spaces or in a paved turnout, pulled completely off the road. Vehicles parked on vegetation or blocking traffic are subject to citation and may be towed.

Sign up for Yosemite traffic alerts by texting **ynptraffi**c to 333111.

Stay safe from lightning.

Thunderstorms are common during the summer. Check the weather forecast before you hit the trail, and pay attention to conditions while hiking. Stay off granite domes and other high-elevation, exposed places during storms, when there is a high risk of lightning strikes. Take shelter in a building or vehicle when possible.

Wildfires inside or outside Yosemite can impact air quality.

Smoke may affect visibility and can pose a health concern, especially for sensitive individuals. Check air quality and smoke forecasts at fire.airnow.gov.

Fires are only allowed in portable stoves, barbecue grills, and established fire rings. Never leave a fire unattended; extinguish the fire completely before you leave it. *Additional fire restrictions may go into effect, depending on conditions.*

Waterfalls peak during spring snowmelt.

Waterfalls are typically fullest in May and early June. Some waterfalls, including Yosemite Falls, can dry up completely by mid- or late summer.

Keep Bears Wild. Proper Food Storage is Required by Federal Law

Bears that frequently access human food* lose their fear of people and can become dangerous. Bears may have to be killed in order to protect people.

☀ During the Day

✓ **DO:** Keep your food* within arm's reach while hiking or picnicking.

✓ **DO:** Lock your vehicle and keep all windows closed when you are away. Keep food*, drinks, and coolers hidden from sight.

✗ **DON'T:** Leave food* unattended outside, in a truck bed, or strapped to the outside of a vehicle.

🌙 At Night

✓ **DO:** Remove food* from your vehicle at night. *Bears can easily break into vehicles in search of food.* Store food inside a bear-proof locker, in a hotel room or hard-sided cabin, or in a hard-sided RV with all windows and doors closed.

✗ **Food*, trash, and other scented items may NOT be stored inside vehicles overnight.**

***To a bear, "food" includes trash, recycling, toiletries, soap, unwashed dishes, and anything else with a scent. All must be properly stored.**

If you see a bear in the park, email yose_bear_mgmt@nps.gov or call the Save-a-Bear hotline at 209/372-0322. To learn more about food storage and bears, visit [KeepBearsWild.org](https://www.KeepBearsWild.org).

DISTANCE FROM WILDLIFE: 150 feet = about four bus-lengths.

It's illegal to approach or feed any wild animal in Yosemite, including birds, squirrels, and deer.

Wildlife can cause injuries and transmit diseases. Human food is unhealthy for wild animals.

Stay at least 150 ft (46 m) from bears and coyotes.

Stay at least 25 ft (8 m) from other wildlife.

Trails Outside of Yosemite Valley

Stop by an open information center to pick up free trail maps and ask a ranger for recommendations. Hours & locations on pages 2 & 3.

Before You Go

Pets and bikes are NOT allowed on hiking trails.

Choose the right trail for your group's ability and experience level. Make sure you have enough time to finish the hike before dark.

Ask a ranger about trail conditions. Snow, ice, flooding, rockfall, hazardous stream crossings, and trail closures are possible.

Check the weather forecast for rain, snow, and thunderstorms. Stay off domes and other exposed places when there is a chance of lightning.

Remember to pack water (minimum 1 qt/L—per person—for every 2 hours on the trail), salty snacks (for hydration), a headlamp, a map, sturdy footwear, and warm and waterproof clothing layers.

On the Trail

Stay on the trail to protect fragile vegetation and avoid getting lost.

Pack out all trash, including nut shells, fruit peels, and toilet paper. Human waste must be deposited at least 100 ft (30 m) from trails and water. Solid waste must be buried six inches deep.

Leave behind what you find. It's illegal to remove natural objects or artifacts from the park. Take a photo instead!

It's dangerous and illegal to approach or feed wildlife. Keep food within arm's reach at all times. Stay 50 yds/m away from bears and 25 ft (8 m) from other wildlife.

Adjust plans as needed. Make sure everyone in the group is staying hydrated and taking breaks. When half your water is gone or when conditions change, it's time to turn around.
