

**DRAW
WITH A
PARK RANGER**

Start out with a simple half-moon shape. Try to draw lightly for now. We're going to draw over this at the end!

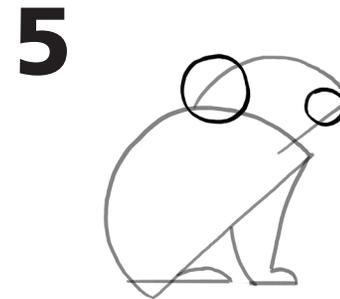

Next, draw two lines for the front leg.

Draw three straight lines for the bottom of the pika's feet and for the bottom of its head.

Draw a big curved line for the top of the head. Draw smaller curves for the top of the feet.

Draw two circles: one for the pika's ear and one for its mouth.

Add a circle for the eye, a half-circle for the other ear, and a straight line for the bottom of the head.

Add a few more details, then draw a couple of long lines for the flowers in the pika's mouth.

Draw some squiggly shapes for leaves and flowers. Add as many as you'd like!

Draw over your light lines. Give your pika some fur, and color it in if you'd like!
