

Distance Learning Equipment Requirements

The requirements to participate in a Distance Learning program are:

- Large screen, speakers, camera, and computer: We can connect with your school through Zoom, which is a web-based program requiring a free download. You will be provided with a link to the video conference ahead of time via an email invite from Zoom. To use this program you may need to download software or plug-ins. This can be done during the equipment test.
- High speed Internet: videoconferencing requires a minimum connection speed of 384 KB per second. If your school has high-speed internet we will most likely be able to do a program for your school.

An equipment test is mandatory before your program date. These tests will only take a short time, and are essential for ensuring a smooth presentation.

If you have questions please contact the Zion Education team at zion_education@nps.gov.
