

Zion National Park

Pine Creek Canyon

Several access trails have been created by park visitors to enter the upper section of Pine Creek Canyon. Over time those trails have become extremely eroded. In efforts to reduce the erosion in this area, volunteers have worked to identify a single access point into Pine Creek. This trail is made up of a more durable surface and will have less noticeable impact from the numbers of people traveling in the area. Please help minimize erosion and use this route.

Pine Creek Canyon Access Point

From the parking lot at the tunnel, walk toward the bridges/road. You will see an access trail that will descend into the canyon. Please stay on hardened surfaces!
